Frameworks and Tools	React.js, Vue.js, Next.js, Redux, Bootstrap, GraphQL
Databases	MySQL, Sql and MongoDB
Other	JIRA, Jest, Webpack, Gulp, Docker

EXPERIENCE

Front End Developer Intra-Play Inc.	Mar 2022 - Aug 2023 <i>Edmonton, AB</i>
---	--

- Optimized performance and user experience on the client website, resulting in a 30% increase in traffic and a 20% increase in user interaction.
- Converted Figma frames to React.js components to overhaul the UI of company's flagship software.
- Created and maintained detailed technical documentation, including API integration, development guide and standards to facilitate future maintenance.
- Proficiently integrated CI/CD processes using AWS services and Git to streamline software development workflows.
- Test various DOM components using react-testing library and document, including test plans, and test cases.

Front-end Developer CS Soft Solutions	Sep 2018 - Aug 2020 <i>Mohali, India</i>
---	---

- Built responsive web applications for startup client projects using HTML5, CSS3, PHP, and CMS such as WooCommerce.
- Worked closely with the graphic designer to implement design mockups of new web pages and UX requirements.
- Collaborate with backend developer to implement microservices architecture.
- Developed modules in front-end such as login, dashboard panel, register, profile page and resolve technical issues.

EDUCATION

Full-Stack Web Development , MacEwan University, Edmonton	Sep 2021 - Aug 2022
Bachelor of Computer Science , Chandigarh Engineering College, India	July 2014 - May 2018

VOLUNTEER

React Developer , HelpUsDefend	Jun 2023 - Current
---------------------------------------	--------------------

Manage the UI for the support desk app as well as the ticketing page using React, JSON Server, and Redux.

PROJECTS

Near buy (Next.js, Node.js, Prisma, Figma and PostgreSQL)

Developed a full stack e-commerce application that supports multiple users to check availability of products from nearby vendors which save time and distance.

Sorting Visualizer (React, Merge Sort, Quick Sort)

Interactive web app that allows users to visually explore and understand sorting algorithms, making it an ideal educational tool for students and enthusiasts. With adjustable array sizes and speed control, it is a valuable resource for analyzing sorting algorithm performance and efficiency.
